**Definitions and Additional Information:**

- The Product is a consumable product by its nature; hence it is subject to a degradation of its performance during its lifetime, which is normal and expected.
- Definition of lifetime: The term "lifetime" is the actual lifetime period of the product, regardless of who owns it, as long as the current purchaser register it to the manufacturer, whether it is the first original purchase, or a subsequent purchase following a transfer or ownership (Second Hand purchase).
- Definition of Lifetime Period: The lifetime period is defined as:
  - a) the period between 100% performance and 80% performance, delivered by the Product;

or

- b) the number of charging cycles that the product has undergone, as defined in the Product specifications, defined by the Manufacturer;

whichever comes first.

- Definition of Normal Use and Service: Normal use and service means using the Product in accordance with the manufacturer's instructions and for the purpose for which it was designed.
- List of Covered Items: This warranty covers the motor, the electronic controller, the internal cables and connectors, the propeller, and all other components of the Product.
- This warranty agreement does not cover the batteries, since they are considered consumable items with a lifetime that may vary depending on their usage. Thus, Warranty for the batteries is covered by a separate Limited Warranty Agreement that better suit the different nature of the batteries, as a product.
- List of other Excluded Items: Cosmetic damage, shipping damage, or damage caused by accidents or misuse.
- Warranty Process: To file a warranty claim, please contact the manufacturer directly at [manufacturer's contact information]. The manufacturer will then provide you with instructions on how to return the Product for service.
- Contact Person or Department: If you have any questions or concerns about this warranty, please contact the manufacturer's customer service department at [customer service contact information].

### **Extended Warranty:**

The manufacturer also offers an extended warranty for the Product. The extended warranty provides additional coverage beyond the terms of the limited lifetime warranty, such as coverage for labor costs and coverage for damage caused by accidents or misuse. For more information about the extended warranty, please contact the manufacturer directly.
